PREFACE.

THE Register printed in the present second volume of Warwickshire Registers is technically not a "parish register," but just as in the Hampshire series it was thought well to include, on account of its special importance and interest, the register of the Cathedral Church of St. Swithun at Winchester, which is not a parish register, so now we print the baptismal registers of the Franciscan Mission associated with the Church of St. Peter, near Broad Street, Birmingham.

As before, this volume is issued without an index. Hereafter, the Editors hope that it will be feasible to issue a general index for the whole county, and thus avoid that great evil—an undue multiplicity of indexes. Moreover, by postponing index-making for the present, we expedite the printing of the Registers themselves, a matter of no small moment when we remember the serious risks of fire, theft and forgery, to which such valuable records are exposed, not to mention those of natural decay and accidental loss.

The following abbreviations, besides others that are obvious, are made use of:—

s. = son of.
d. = daughter of.
dno. = domino.
fs. = filius.
fa. = filia.
nat. = natus *or* nata.

p. = of the parish of.
co. = in the county of.
pat. = patrinus *or* patriana.
pp. = proxy pro.
sti. = sancti.
Vigor = Vigornia,
i.e., Worcestershire.

It may be well here to remind the reader that these printed abstracts of the Registers are not legal "evidence." For certificates application should be made to the Rev. George Williams, Missionary Rector of St. Peter's, Bir-

mingham, by whom this valuable record was deposited for safe custody in the library of Oscott College.

Volume III will contain the Marriages, Deaths, etc., recorded in this Register, and will be issued at an early date.

It only remains to add that the Editors will gladly welcome further help in the way of transcribing registers. It is only such voluntary help which renders it possible to issue this series of the Registers of Warwickshire.

The Franciscan Mission at Birmingham,
Baptisms, 1657—1824.

Warwickshire Parish Registers.

The Franciscan Register of St. Peter's, Birmingham, 1657 to 1824.

NOTE.—The Franciscan Register of Birmingham and East Warwickshire is a paper volume bound in parchment. Each page measures $12\frac{1}{2}$ inches \times $8\frac{1}{4}$ inches, and according to the pagination there are pp. ii. + 349, but as six leaves (pp. 19–20, 59–60, 133–134, 215–6, 284–5, 340–1) have been cut out, and page 282 was numbered in error as 283, there are now actually, besides the title pages, 336 pages of Register. Of these 56 are blank, 193 are filled with Baptisms, 24 with records of the Reconciliations of lapsed Catholics and non-Catholics to the Church; 16 are devoted to Confirmations, 14 to Marriages, 10 to Deaths; 7 are devoted to the enrollment of members in the Confraternity of the Cord of St. Francis, and a single page to the members of the Third Order of St. Francis. The remaining twelve pages contain an interesting account of the erection and subsequent destruction of the Catholic Church in Birmingham in James II's reign, with the list of those who subscribed to the same. This is included in the present volume. The Baptisms are recorded in batches in different parts of the book; the Confirmations and Marriages also are continued elsewhere. The earliest entry bears the date Sept., 1567, the last is for Feb. 1, 1824, but the record does not cover the whole period between those dates. Thus there are lacunæ in the register of Baptisms during the years 1699–Oct., 1708, Oct., 1713–Sept., 1715, Dec., 1717–Sept., 1722, Feb., 1726, 7–Jan., 1735, Mar., 1735–Sept., 1740, 1747–1762. It is evident from the title page, and from various corrections of copyists' errors, that the early portion of the Register is a transcription. To assign the exact date at which the original entries begin is not easy; it is certainly not earlier than 1695, and very possibly the years 1695–9 were also transcribed but by another hand.

Birmingham was not erected as an official residence of the English Franciscans until 1687, but for thirty years previously Father Leo Randolph

had been working in that district, and this register is a record of one portion of his activity from the very beginning of his missionary career on Sept. 12, 1657. Father Leo was appointed first Preses of Birmingham and began the building of a Chapel and residence, the description and history of which is here recorded. The site on which the church and convent stood is still called Mass-house lane. On the destruction of his Chapel, Father Leo retired to Edgbaston, where he rented a house and opened a Chapel. To this a school was afterwards attached; this appears to have come into existence about 1725, and to have continued at Edgbaston till 1789, when it was transferred to Baddesley Clinton. For over a century this was one of the most conspicuous of the few schools in their native land where English Catholics could be educated. The Franciscan mission remained situate in hired lodgings in Edgbaston till 1783, in which year Father J. (Pacificus) Nutt built and opened (May 6) St. Peter's Chapel. Owing to the circumstances of the time, the exterior of this chapel was made to resemble a manufactory. The chapel was enlarged in 1802, and its accommodation further increased in 1825 by the addition of side galleries.

The mission was served by the English Franciscans till 1824, when lack of numbers forced them to resign it into the hands of the Bishop of the Midland District; since then it has belonged to the secular clergy. From entries in the Register we learn that the following priests were at one time or other attached to this mission:—Father Leo Randolph, 1657–1698; Father Henry Appleton, 1761–1766; Father Augustine Clarkson, 1762–3; J. (Pacificus) Nutt, 1770–99; William (Augustine) Kemble, 1798–9; James (Leo) Sumner, 1803; Richard (Anthony) Sumner, 1801–4; Charles McDonnell, 1804; Joseph (James) Howse, 1804; James (Lawrence) Hawley, 1804–1824; William (Joseph) Pursell, 1813–1818; Francis Martyn, 1816; Francis (Leo) Edgeworth, 1822. There are also records of Baptisms by the following priests attached to other missions:—John Austin, of Brailles, co. War. (p. 278); Edward Peach, of St. Chad's, Birmingham (back cover); M. le Roux, a French refugee (p. 166); and Thomas Percy (p. 12).

Two interesting entries are found (pp. 265 and 272) of monies paid to the Stamp Office at Lichfield for the registration of baptisms.

With the register are a number of loose papers bearing baptismal records. These entries have been collated with those in the Register, and any additional information noted.

The localities mentioned in the earlier part of the Register are somewhat scattered, extending as far south as Alcester and Studley in Warwickshire, and Upton Warren in Worcestershire, and as far north as Wolverhampton. A large number of baptized evidently came from Tanworth, a village near Henley in Arden, but Solihull in the first part of the xviii century seems to have been the most distinctively Catholic locality mentioned, and it was formed into a separate mission about 1750. The names also of Rowington, Coleshill, Alvechurch, and Fillongley frequently recur, but from about the year 1800, nearly

all the families concerned are entered simply as coming from Birmingham.

From about 1785 onwards, Irish families appear, as though recently arrived from Ireland, and there is an evidence of Italians settling in the neighbourhood from about the same date.

There are several names running through the Register, from the beginning to the end, such as the Partridges, chiefly of Harborne and Edgbaston, who first appear in 1667, and for the last time in 1821. The Middlemores of Edgbaston and King's Norton go from 1659 to 1819, the Millwards from 1684 to 1823, and the Spurriers from 1708 to 1805. Other entries give Fielding, Ferrers, Knight, Howard, and Windsor.

From the early date at which the entries commence, and also for its completeness, this Register must be regarded with peculiar interest. Hitherto it has generally been supposed that the earliest Catholic Register records since the schism of the sixteenth century do not commence earlier than 1685 or thereabouts, but this volume, beginning nearly thirty years before, is clear evidence to the contrary.

This Register belongs to St. Peter's Mission in St. Peter's Place, near Broad Street, Birmingham. Some years ago it was deposited for safe custody in the Museum of Oscott College by the Rev. George Williams, the present Rector of St. Peter's Church, and with his consent, and with the approval of the Right Rev. Dr. Ilsley, Bishop of Birmingham, it has been transcribed by the undersigned, and is now printed after the proofs have been collated with the Register. The pages of the original manuscript are indicated in this transcript, the subject matter for which has in a measure, for convenience, been re-arranged.

Mr. George Brown, priest		1	1	6

All this monie, and more, was expended in y^e building, and in ornaments for y^e Church, as Altars, &c.: and all destroyed and taken away except plate and some small things to the value of about £40, and there were other things lost also, not bought with this monie, which came to great part of this £40. This Church and part of a Convent was first defaced, and most of it burnt within, to near y^e value of £400 by y^e Lord Dellamer's Order upon y^e 26 of November, 1688, and y^t day sevensnight following y^e Rabble of Birmingham, began to pull y^e Church and Convent down, and ceased not until they had pulled up y^e foundations. They sold y^e materials, of which many houses and parts of houses are built in y^e town of Birmingham, y^e Townsmen of y^e better sort not resisting y^e rabble, but quietly permitting if not prompting them to do it. I hope and humbly desire y^t when it pleaseth God to convert this nation and y^e pious rebuild Churches and Convents destroyed, y^t this Church and Convent may be rebuilt in y^e same form, and y^e altars under y^e same titles as they first were, viz.: y^e Church dedicated to God and St. Mary Magdalen, to whom y^e high altar was also dedicated, y^e altar piece being of our Saviour's apparition to St. Mary Magdalen in y^e garden,

185.

In lieknes of a gardiner, after his Resurrection, with ye Tounge on y^e one side, and y^e stone rolled by, and tow angels siting, one att y^e head, and y^e other att ye feet, She turning from them to our Saviour, with this motto underneath, Women why dost thou weep, whom dost thou seek?—John 20, v. 15. The Chapell on y^e gospel side which was an outcast five foot in y^e Cleare was dedicated to God and our B. Lady, y^e altar Pice being y^e picture of our B. Lady with a Child in her armes, under her right foot y^e globe with a serpent about it, she treading on y^e serpent's head: with this motto, She shall bruise thy head.—Gene. 3, v. 15.

The Chapel on y^e Epistle side just opposite to y^e other and of liek forme was dedicated to God and our H. Father St. Francis, he pictured standing in his habitt, imbracing in both hands and kissing a Crucifix; with y^e globe att

y^e bottom of y^e picture, and he with his right foot spurning att it, with this motto: God forbid y^t I should glory, but in y^e Cross.—Galat. 6, v. 14.

The Church was within y^e Walls 95 foott long, and y^e body of y^e Church was within y^e Walls 33 foott wide, without any pillar in it, it carried this wideness about 80 foott and then narrowed in, on each side five foot, so y^t y^e wideness of y^e high altar, was but 23 foot, and y^e length of narrowing to y^e outcasts whaere the tow Chapels weare was 15 foot. By this narrowing in y^e body of y^e Church, there was on each side a sholdering of 5 foot, which having by an outcast 5 foot more added unto it, made y^e Chapels 10 foot wide, and y^e outcast was 10 foot deepe in y^e cleare, so y^e Chapels were 10 foot square in y^e cleare, and y^e altars waere built against them sholderings, so y^t as soone as you caeme in y^e Church, att y^e lower end of y^e Church, you had all y^e 3 altars in y^e eye, y^e high altar had four large Pillars, carved with Corinthian Capitals, y^e side altars had eache of them 2 pillars with Corinthian Carved Capitals, and all y^e alters had other carved works answerable.

I humbly desier my superiors y^t they will use their endeavours when Catholick times are settled, which I doubt not but will bee ere long, to have the Church and Convent rebuilt, those y^t distroied it or weare y^e occasion, will or ought in justice administer mony to doe it. And I desier y^t this cathaloge of Benefactors or first founders be entered in y^e Convent register, y^t they may be prayed for for ever according to religious Custom; if it please god I live, I doubt not under god to see it rebuilt. Our Sindick here hath y^e writings belonging unto y^e Ground, and I have left 2 mapes in Parchment of y^e forme and model of y^e Church and Convent, in y^e same place it was before. I have set forth y^e whole building and figurd it, and lettered y^e mapes and explained y^e figures and letters, so y^t it may be set out with little troble, I have also in those parchments drawn a form of an Infirmary with y^e saeme directions, those parchments are kept by friends and will be timely produced.

Baptizati.
